

## **SIGA to Discuss Fourth Quarter and Year-End 2009 Results of Operations on March 10, 2010**

### **Company to Host Investor Update Call and Simultaneous Webcast**

NEW YORK, Mar 5, 2010 (GlobeNewswire via COMTEX News Network) -- SIGA Technologies, Inc. (Nasdaq:SIGA), a company specializing in the development of pharmaceutical agents to fight bio-warfare pathogens, announced today that it will report fourth quarter and full-year 2009 results on Wednesday, March 10, 2010.

Management will host a conference call and simultaneous webcast to discuss the results of operations and provide an update on recent business developments at 4:30 pm ET on Wednesday, March 10, 2010. Participants should call 877-564-1219 (United States/Canada) or 973-638-3429 (International) and request the SIGA call or provide confirmation code 59489461. A live broadcast of the call will be available on the Company's website at [www.SIGA.com](http://www.SIGA.com) under the 'Events & Presentations' tab in the Investor Relations section.

A replay of the call will be available approximately two hours after the call and will be available until 11:59 p.m. on Wednesday, March 17, 2010. To listen to the replay, dial 800- 642-1687 (domestic) or 706- 645-9291 (international) and enter the pass code 59489461. The webcast of the event will also be archived on the Company's website for one year under the 'Events & Presentations' tab in the Investor Relations section.

About SIGA Technologies, Inc.

SIGA Technologies is applying viral and bacterial genomics and sophisticated computational modeling in the design and development of novel products for the prevention and treatment of serious infectious diseases, with an emphasis on products for biological warfare defense. SIGA believes that it is a leader in the development of pharmaceutical agents to fight potential bio-warfare pathogens. SIGA has antiviral programs targeting smallpox and other Category A pathogens, including arenaviruses (Lassa fever, Junin, Machupo, Guanarito, Sabia, and lymphocytic choriomeningitis), dengue virus, and the filoviruses (Ebola and Marburg). For more information about SIGA, please visit SIGA's web site at <http://www.siga.com/>.
